

Horse Thief Flats

Requirements:Rated- (Moderate) Minimum 31" tires and a locker recommended. Low ground clearance vehicles are likely to get scraped on the rocks.

Description:As you descend from the majestic views from Baldwin Lake, the trails winds down into territory that was once a place where Gold Rush era cattle rustlers used to call home. After descending into the flat itself there is a challenging climb which might require a spotter or two. Due the elevation changes, the trail can be anywhere from extremely cool to downright hot as you enter the flat. Use extreme caution during the rock crawling sessions as some lines can be more "challenging" than others. Enjoy this scenic and historic trail.
