

# Historical Run

Requirements:Rated–Easy (Green)

Stock 4x4 readily accessible with no lockers required.

Description:The Historical Run will be lead by IE4W's walking encyclopedia, Jerry Burgess. He sometimes also has the help of the Forest Service Rangers who seem to know every inch of this forest. The route is always a surprise but provides an entertaining day in the Forest. Any vehicle with a functioning 4WD can do this trail. Our route will vary depending upon the vehicles that attend. If you have not been on the Historical Run because your rig is big and built and needs to conquer the rocks, then you are missing out on the best trail in Forest Fest. So no matter what you have, a built jk on 40's or a stock Jeep Patriot, you need to experience this trail at least once.
